A Guide for Planning

Center for Learning and Leadership • University Center for Excellence in Developmental Disabilities
University of Oklahoma Health Sciences Center • OU College of Medicine

The *Child Preference Indicators* guide was developed by the Center for Learning and Leadership, Oklahoma's University Center for Excellence in Developmental Disabilities (UCEDD), specifically to support our work with self-advocates, families, professionals, and academic and community colleagues. The Center for Learning and Leadership is located at the University of Oklahoma Health Sciences Center, College of Medicine, P.O. Box 26901, ROB 342, Oklahoma City, OK 73126-0901. If you would like additional copies, please contact the Center for Learning and Leadership in Oklahoma City at (405) 271-4500 and press "0" to have your call directed. This publication is available in alternative formats for accommodations on the basis of disability.

Acknowledgement: This guide was originally produced by Jan Moss for Training Oklahoma Providers of Service (TOPS), a U.S. Department of Education-funded project number H029G60186. The guide may be reproduced for educational purposes only.

The Center for Learning and Leadership/UCEDD is a collaborative initiative of the University of Oklahoma Health Sciences Center with support from the U.S. Administration on Developmental Disabilities grant number 90DD0543.

**The Center for Learning and Leadership/UCEDD
is in Academic Partnership with:**

East Central University - Ada, Okla.
University of Oklahoma Health Sciences Center, Graduate
and Professional Schools - Oklahoma City, Okla.
The University of Tulsa - Tulsa, Okla.

This publication, printed by the Center for Learning and Leadership, is issued by the University of Oklahoma. Two thousand copies have been prepared and distributed at no cost to the taxpayers of the State of Oklahoma. Director, V.N. Williams, Ph.D. The University of Oklahoma is an equal opportunity institution.

Child Preference Indicators: A Guide for Planning

The purpose of this guide is to assist professionals in acquiring a family's expertise about their child and to assist families in giving that expertise to professionals.

The *Child Preference Indicators* guide is not a checklist. It is a tool to guide professionals and families in accessing information held by the family that is critical to developing an individualized plan for the child. A plan that uses what the family knows about their child's preferences is a personalized connection to the child *and* constructively involves the family.

The *Child Preference Indicators* guide is organized around seven domain areas. The domain areas are good conversation starters and offer a nice way to learn more about the child from the people who know him or her best. We recommend talking about the domain areas in informal conversations with the family over a period of time. These conversations will assist everyone in getting to know the child better. The *Child Preference Indicators* guide also is an excellent tool for matching interests in peer activities and in selecting service providers. When the *Child Preference Indicators* guide is used by any member of the planning team in interactions with the family, it has the potential to unfold a picture of the child that goes beyond discipline-specific assessments.

Child Preference Indicators Domain Areas:

- Individual Indicators that may identify the child's "**favorites**"
- Emotion Indicators that focus on the child's "**feelings**"
- Socialization Indicators to highlight the child's "**social world**" and relationships
- Self-Determination Indicators that focus on "**choices**" the child makes
- Physical Indicators that center on the child's "**body clock**"
- Health Indicators that reveal the child's "**health issues**"
- Role Indicators that identify the "**family member roles**"

FAVORITES

Individual Indicators

What are your child's favorites? Do you know why? How can you tell? Any other things?

- foods
- games
- color
- music/sounds
- clothes
- smells
- words
- toys
- being alone/
with others
- animals

Who are your child's favorite people? Do you know why? How can you tell?

What are your favorite things about your child?

FEELINGS

Emotion Indicators

What makes your child happy? How do you know?

- being outdoors
- being indoors
- certain tastes (eating)
- free time
- games
- being with other children
- toys (which ones?)
- tactile (tough, rough, soft)
- a special place
- Music/sounds
- rules/boundaries
- being read to
- being sung to
- structured activities

What motivates your child? How can you tell?

- free time
- playtime/with others
- toys
- money
- sounds
- animals
- food
- knows when successful
- music
- privileges
- TV/other
- a particular person

What calms your child? Do you know why? How can you tell? Anything else?

- being held
- being active
- music
- rocking
- being talked to
- laughter
- familiar object/blanket

FEELINGS

Emotion Indicators (continued)

What does your child dislike? How can you tell?

- noise
- rushing/hurrying
- tactile (touch, rough, soft)
- foods
- smells
- being alone/with others
- rules/boundaries

Does your child use facial expressions to communicate? Which ones? What do they mean?

CHOICES

Self-Determination Indicators

Does your child make choices?

- | | | | |
|---|--|---|--|
| • food
mealtime
restaurant | • dressing
clothing/texture | • activities
chores
exercise
private time
free time
hobbies | • sports
television
sporting events |
| • bedtime
bedroom decor
night light
time to arise | • music
soft
loud | | |
| • travel/vacation | • therapies | • equipment | • friends |
| • medication
pill
melt
liquid
patch | • bathing
toys
perfume/cologne
bubbles/soaps | • direct-care staff | • repetitiveness |

BODY CLOCK

Physical Indicators

What is your child's best functioning time? How can you tell?

- | | | | |
|-------------------------------------|---------------|----------------|-------------|
| • morning | • mid-morning | • afternoon | • evening |
| <i>Preference for rising:</i> | • early | • late | |
| <i>Preference for eating:</i> | • indifferent | • shows hunger | |
| <i>Preference for working:</i> | • morning | • mid-morning | • evening |
| <i>Preference for going to bed:</i> | • afternoon | • evening | • nighttime |
| <i>When does your child tire?</i> | • mid-morning | • afternoon | • evening |

If your child takes regular medications, what time of day does he/she take them and what are the effects?

Do you plan activities to coincide with his/her body clock? Explain.

HEALTH

Health Indicators

What information about your child's health do you want to share?

- frequently ill
- well most of the time
- affected by allergies
- susceptible to infections

Headaches:	<input type="checkbox"/> frequent	<input type="checkbox"/> infrequent	<input type="checkbox"/> never
Stomachaches:	<input type="checkbox"/> frequent	<input type="checkbox"/> infrequent	<input type="checkbox"/> never
Earaches:	<input type="checkbox"/> frequent	<input type="checkbox"/> infrequent	<input type="checkbox"/> never
Seizures:	<input type="checkbox"/> frequent	<input type="checkbox"/> infrequent	<input type="checkbox"/> never
Fevers:	<input type="checkbox"/> frequent	<input type="checkbox"/> infrequent	<input type="checkbox"/> never

How do you know when your child feels bad? Good?

How does your child feel about going to the doctor?

FAMILY MEMBER ROLES

Role Indicators

How is your child involved with your family? • some • little • not at all
• responsibilities • hierarchy, etc.

Who are the caregivers in the family? Who is relief to the primary caregivers?

How do you include your child in family responsibility? How often? Why or why not?

What kind of discipline is used by your family? Time out, redirection, other? (If none, why not?)

What are your greatest concerns for your child? Yourself? Your family?

- educational
- financial
- medical
- childcare
- other

How do you see the future for your child? Your family? Next year? Five years? Ten years?
